Bibhu Prasad Sahu

Frontend Engineer | React & TypeScript

Bangalore, India | LinkedIn

Professional Summary

Frontend engineer with nearly five years of full-time experience at GyanSys, progressing to Senior Consultant. Develops React and TypeScript interfaces for enterprise semiconductor applications, including data visualization, entitlement-driven UI behavior and asynchronous API integration.

Career Highlights

- Partnered with product and UX teams to deliver frontend features for enterprise applications.
- Optimized application caching and frontend state management.

Professional Experience

GyanSys Inc | Bangalore, India Nov 2021–Present

Senior Consultant Mar 2026–Present

Consultant Jun 2024–Feb 2026

Associate Consultant Nov 2021–May 2024

Selected frontend projects for an enterprise semiconductor client across these roles.

Results Analytics Platform Apr 2025–Present

- Contributed React and TypeScript features to wafer-inspection dashboards in a Lerna monorepo; implemented entitlement-driven behavior across routes, navigation and grid columns.
- Developed D3.js visualization components with layered canvas rendering for defect data.
- Implemented Redux asynchronous data flows and REST API integrations with centralized token handling and request cancellation.
- Resolved frontend defects and added targeted regression coverage.

Materials Simulation Platform Feb 2024–Mar 2025

- Built React and TypeScript interfaces with Redux Toolkit and SCSS, including a workflow for material properties, dimensions and layered patterns; contributed to OBJ-file generation for downstream simulation.

Semiconductor Application Dec 2021–Dec 2023

- Delivered frontend features, resolved critical defects and built interactive visualizations using React, Redux, D3.js and Sass; worked cross-functionally on integration and compatibility issues.

DCT Academy | Software Intern | Bangalore, India Mar 2021–Oct 2021

- Built a bill-management application with JWT-based login and customer, product and billing CRUD functionality, using Redux Thunk, React Router, Material UI and Axios.

Core Skills

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS, SCSS/Sass

State and APIs: Redux, Redux Toolkit, Redux Thunk, REST APIs, Axios

UI and Delivery: D3.js, Material UI, Bootstrap, Webpack, Lerna, Git, Jira

Quality: Regression testing, CI quality-gate remediation, code review

Education

Master of Computer Applications Jul 2019

National Institute of Science and Technology, Berhampur, Odisha

Bachelor of Computer Applications Apr 2015

Khalikote Autonomous College, Berhampur, Odisha
